

THIAZOLYL-BASED COMPOUNDS USEFUL AS KINASE INHIBITORS

ABSTRACT

The present invention provides thiazolyl-based compounds of formula (I),

5 useful for treating p38 kinase-associated conditions, wherein ring A is phenyl or pyridyl, and X, Y, B, R^2 , R^3 , Z^1 , m and n are as defined herein. The invention further pertains to pharmaceutical compositions containing at least one compound according to the invention useful for treating p38 kinase-associated conditions, and methods of
10 inhibiting the activity of p38 kinase in a mammal.
